Summary

Recent MCA graduate (Data Science & AI) with hands-on experience using AI coding agents like ChatGPT and Claude for prompt engineering and workflow automation. Skilled in Python, SQL, Git, and GitHub, with experience building and shipping end-to-end projects, integrating APIs, and following structured Git and pull-request workflows. Comfortable taking loosely defined problems, working independently in a remote environment, and explaining the reasoning behind technical decisions.

Skills

Technology Stack: Python, SQL, Core JAVA, OOPs Concepts, Operating System, Machine Learning, Artificial Intelligence, MS office, Streamlit, JSON, AI Tools, Prompt Engineering, APIs, R

Libraries/Frameworks: Pandas, NumPy, Matplotlib, Scikit-learn, PyTorch, OpenCV

Data Visualization Tools: Advanced Excel, VLOOKUP, HLOOKUP, XLOOKUP, Pivot Tables, Power BI, Dashboard, KPI Reporting, Google Sheets

Development Tools: GitHub, VS Code, Git, Pull Request Workflows, Open-Source Contribution, AI Coding Agents (ChatGPT, Claude), API Integration

Administrative Skills: Data Entry, Database Management, Digital Record-Keeping, Data Verification & Discrepancy Resolution, Documentation Procedures, Data Integrity, Data Backup & Recovery, Data Clean-up, Typing Accuracy & Speed, Report Generation

Analytical Abilities: Data Analysis, Exploratory Data Analysis (EDA), Data Validation, Business Analysis, Predictive Analytics, Insight Generation, Data Management, ETL Concepts, Trend Analysis, Anomaly Detection, Root-Cause Analysis, Reporting

Experience

Generative AI Virtual Intern **February 2026– March 2026**

IBM Developer Skills Network (Virtual) | *Tools Used: Generative AI, Prompt Engineering, IBM Skills Network*

- Learned prompt engineering techniques and AI-assisted problem-solving workflows.
- Explored the use of AI tools to improve productivity, content generation, and business use cases.

Projects

INDUSTRIX AI – AI-Powered Industrial Analytics & Predictive Maintenance | *Python, Machine Learning, LLM (Gemini AI), Scikit-learn, Pandas, NumPy, Fast API, PostgreSQL* **September 2026 – October 2026**

- Developing an AI-powered industrial analytics platform to analyze uploaded datasets and generate data-driven insights into machine health and equipment performance.
- Integrating an LLM-powered AI copilot, NOVA, to interpret analytical results, answer natural-language questions, and explain industrial insights.

Retail Food Price Analysis and Prediction | *Python, Streamlit, SQL, Machine Learning* **February 2026 – May 2026**

- Built an end-to-end machine learning pipeline to forecast retail food prices, enabling data-driven pricing analysis.
- Streamlined the data-cleaning workflow and improved reporting turnaround by automating repetitive validation steps.

Safe Guard Pro | *Python, React, Scikit-learn, Joblib, Leaflet, TensorFlow, XG Boost, SHAP* **May 2026 – June2026**

- Built an AI-powered crime prediction system with 85% accuracy on 100K+ crime records, enabling data-driven crime risk analysis.
- Developed a React + Flask application with REST APIs to deliver real-time predictions through an intuitive web interface.

Certifications

- Data Analyst– **Deloitte (2025)**
- AI Analyst, Machine Learning with Python, Python for Data Science, NoSQL & DBaaS – **IBM (2025)**

Education

Master of Computer Application (Data Science & AI) **2024-2026**

Babu Banarasi Das University, Lucknow *Percentage: 73.4*

Bachelor of Computer Application **2021-2024**

Ambalika Institute of Higher Education, Lucknow *Percentage: 71.7*
